

# Green Earth Recon instructions

## step 1

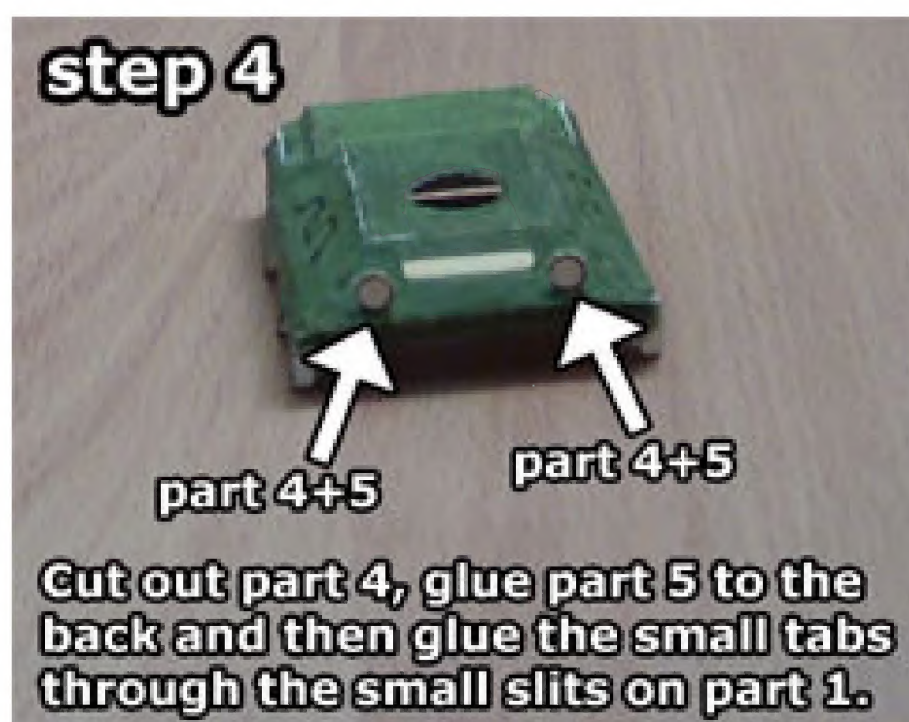

## step 2

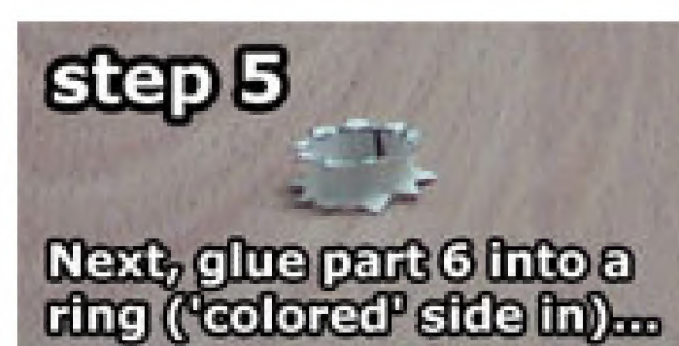

## step 3

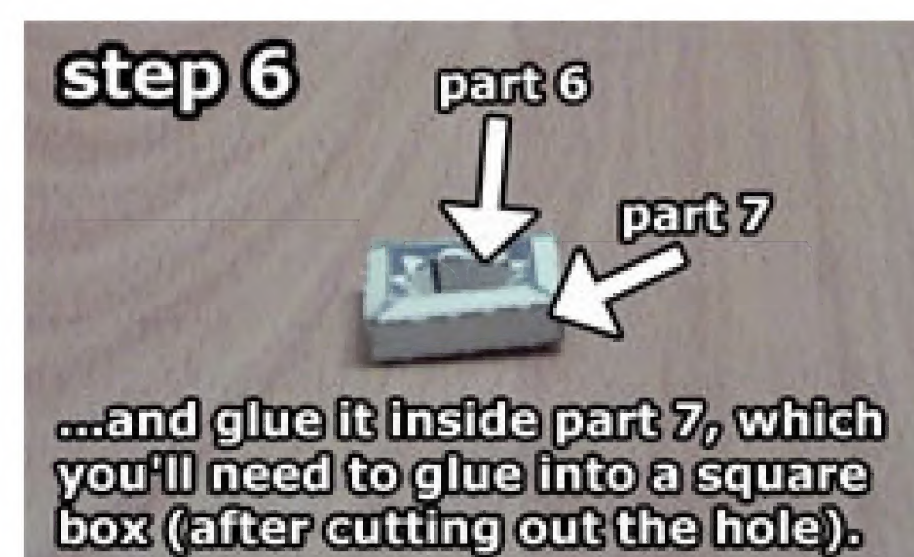

## step 4

## step 5

## step 6

## step 7

Glue this assembly underneath part 2, aligning the holes of course.

## step 8

Fold and glue part 8 into a square axle ('colored' side in again), then cut out the square hole on part 9 and slide it over part 8. Fold back the flaps on part 8 and glue them to part 9. Then cut out part 10 and sandwich the flaps you just glued to part 9.

## step 9

Push this axle assembly through the holes on parts 2 and 7. **DON'T USE GLUE!!**

## step 10

Cut out the two holes and the two slits on part 11. Glue part 12 underneath and parts 13 and 14 to the sides. Position the square hole on the bottom of part 11 over the axle and glue back the flaps.

## step 11

Glue part 15 inside...

## step 12

...then close the top.

## step 13

Glue together part 16 and push the two tabs at the sides through the slits on part 11.

## step 14

Glue part 17 into a truncated cone and glue it onto part 16.

## step 15

Roll up part 18 as tight as possible, and push the white part inside the truncated cone.

## step 16

Before assembling part 19, be sure to cut all the slits!

## step 17

Glue on parts 20.

### step 18

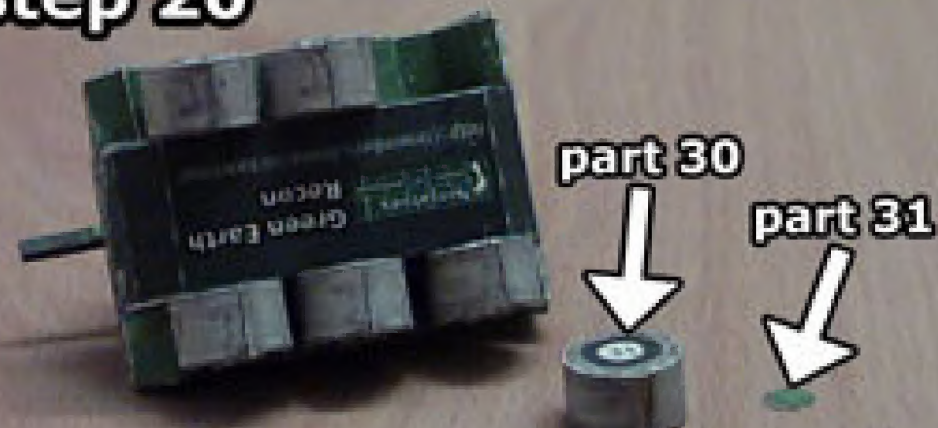

Now cut out parts 21 and 22, score and fold them, and glue them to part 19 by pushing the appropriate tabs through the appropriate slits.

### step 19

Glue this assembly to the bottom of the main hull.

### step 20

Now cut out the wheels (parts 24-31), and glue them to the designated spots.

### step 21

Cut out and assemble parts 32-36.

### step 22

Cut out and assemble parts 37-39...

### step 23

...and glue part 39 to part 38...

### step 24

...before glueing all the bodyparts together.

### step 25

**Green Earth  
Recon**

Glue the GE soldier on top of the Recon and enjoy your new Advance Wars unit. Thank you for downloading and building a Ninjatoes' paper model!!
